****COMPLAINT FOR MEDICAL MALPRACTICE****

In the case of **[Patient Name]** vs. **[Physician Name]**, the plaintiff alleges medical malpractice against the defendant physician, claiming failure to disclose all necessary warnings, precautions, adverse side effects, and natural alternatives as a first line of treatment.

The plaintiff, **[Patient Name]**, visited the defendant physician, **[Physician Name]**, seeking treatment for [medical condition]. During the consultation, the defendant prescribed **[medication name]** without adequately informing the plaintiff of the potential risks, side effects, and precautions associated with the medication.

Furthermore, the defendant failed to discuss any natural alternatives or non-pharmacological treatment options that could have been considered as a safer first line of treatment. This omission deprived the plaintiff of the opportunity to make an informed decision about their healthcare.

Subsequently, the plaintiff experienced **[adverse side effect(s) experienced]**, which were not disclosed or adequately addressed by the defendant physician. As a result of this negligence, the plaintiff suffered **[physical/psychological harm]**, endured **[financial burden, emotional distress, etc.]**, and required **[medical intervention, prolonged treatment, etc.]**.

The plaintiff contends that the defendant's failure to fulfill their duty of care constitutes medical malpractice. By neglecting to disclose all necessary information and explore safer alternatives, the defendant breached their duty to provide competent and informed medical treatment to the plaintiff.

The plaintiff seeks compensation for damages incurred as a direct result of the defendant's negligence, including but not limited to medical expenses, pain and suffering, lost wages, and any other applicable damages.

In conclusion, the plaintiff alleges that the defendant's actions or lack thereof constitute a clear case of medical malpractice, and therefore, the plaintiff requests appropriate legal remedies to address the harm suffered as a consequence of the defendant's negligence.

The plaintiff reserves the right to amend or supplement this complaint as further evidence becomes available. The plaintiff also expresses the intent to pursue this matter through legal proceedings should an amicable resolution not be reached.

Dated this **[date]** day of **[month]**, **[year]**.
